UI/UX DESIGNER | GRAPHIC DESIGNER

SUMMARY

UI/UX and Graphic Designer with hands-on experience designing user interfaces, wireframes, prototypes, and visual assets for web and product concepts. Skilled in Figma for interface design and prototyping, Photoshop and Canva for marketing and graphic design work. Experienced in translating business requirements into clean, user-centered designs, collaborating closely with development teams, and delivering responsive, developer-ready design files. Passionate about crafting intuitive, visually engaging digital experiences for real-world, startup-oriented products.

DESIGN SKILLS

Design Tools: Figma, Photoshop, Canva

UI/UX Design: Wireframing, Prototyping, User Flows, Responsive Web Design, Design Systems

Graphic Design: Layout Design, Visual Assets, Branding Elements, Marketing Poster Design, 3D Visuals

Design Principles: Visual Hierarchy, Typography, Spacing & Layout, Usability, Consistency

Collaboration Tools: Git, GitHub (for design-dev handoff)

EXPERIENCE

UI/UX Designer — Masterstroke

- Working as a UI/UX Designer on live product and client design work, translating requirements into wireframes, prototypes, and polished visual designs.
- Designing marketing posters and promotional visual assets using Photoshop, Canva, and Figma to support brand and marketing campaigns.
- Collaborating with the development team to ensure design consistency and smooth handoff of UI assets for implementation.
- Contributing to design iterations based on feedback, focusing on usability and visual clarity.

DESIGN PROJECTS

Stablecoin — Blockchain Landing Page (UI/UX Design)

- Designed the UI/UX for a landing page introducing a stablecoin blockchain platform, focused on clearly communicating the product's value proposition to users.
- Created wireframes and high-fidelity mockups in Figma covering hero section, features, how-it-works flow, and call-to-action sections.
- Designed a clean, trust-focused visual layout suited to a fintech/blockchain audience, with attention to typography, spacing, and visual hierarchy.
- Built a responsive design adaptable across desktop and mobile screen sizes.
- Collaborated on translating design concepts into a structured, developer-ready design file.

BridgeKey — Web Landing Page Design & Animation (Masterstroke)

- Designed the landing page for BridgeKey, a web project completed for Masterstroke, focusing on a clean and professional visual layout.
- Created smooth animations and transitions to enhance user engagement and improve the overall browsing experience.

All India Dog Seller Platform (UI/UX Design)

- Designed the user interface for a platform allowing users to browse dog breeds, view pricing, and contact sellers across India.
- Created wireframes and mockups for breed listing, filtering, and seller contact flows.
- Designed a responsive layout for a seamless browsing experience across devices.

Salon Booking System (UI/UX Design)

- Designed the interface for an online appointment booking platform for salon services.
- Created a time-slot selection flow and booking confirmation screens focused on ease of use.
- Designed a responsive UI for selecting services and confirming appointments.

EasyRout Travel Agency — Poster Design

- Designed a promotional poster for EasyRout, a travel agency, to advertise its travel services and attract customers.
- Created an eye-catching layout with strong visual hierarchy, typography, and imagery suited to the travel and tourism audience.

EDUCATION

Bachelor of Science (B.Sc.) — Computer Science

Professional Training: UI/UX & Graphic Design

VOLUNTEER EXPERIENCE

Volunteer, National Service Scheme (NSS)

- Participated in community development activities including cleanliness drives and public health awareness programs.
- Engaged in rural development initiatives and social outreach events.
- Completed over 100 hours of community service, recognized for consistent involvement in social welfare activities.
